

Sana Liaqat

Senior Product Manager — SaaS & Digital Platform, Payments & Platform Integrations

Dubai, United Arab Emirates | sana.liaqat.pm@gmail.com | +971 50 000 0000 | linkedin.com/in/sana-liaqat-pm | sanapm.me

PROFESSIONAL SUMMARY

Impact-driven Product Manager with 7+ years of cross-functional technology experience across Product Management, Technical Support, Quality Assurance, and Product Operations. Proven track record leading high-scale B2B/B2C SaaS, FinTech, PropTech, marketplaces, and eCommerce platforms across Europe and the Middle East. Deep technical expertise in multi-provider payment integrations (Adyen, MangoPay, Tabby, Split Payments), complex API ecosystems, product analytics (Mixpanel, CleverTap, New Relic, Mezmo), and conversion optimization. Adept at translating ambiguous business objectives into scalable roadmaps, data-driven backlogs, and measurable customer value.

CORE COMPETENCIES & SKILLS

Product Strategy & Execution: Product Roadmapping, PRDs & User Stories, Backlog Grooming, Customer Discovery, Agile/Scrum, A/B Testing, Funnel & Conversion Optimization

FinTech & Payments: Payment Gateways (Adyen, MangoPay, Tabby), Split Payments, Escrow, Digital Wallets, PCI-DSS, 3D Secure 2.0, Subscription Invoicing

Technical & Integrations: RESTful APIs, Webhooks, Postman, System Architecture, Microservices Concepts, SQL

Analytics & Tools: Mixpanel, CleverTap, New Relic, Mezmo, Metabase, Jira, Confluence, Figma, Miro

PROFESSIONAL EXPERIENCE

Bayut & dubizzle (EMPG)

2021-08 -- Present

Product Manager — FinTech, Payments & Monetization

(Dubai, UAE)

- Spearheaded user churn reduction and cancellation flow redesign using cohort analysis in Mixpanel and CleverTap, slashing subscription cancellations by 23%.
- Analyze funnel metrics and user journeys using Mixpanel, CleverTap, and New Relic to uncover drop-offs, optimize checkout conversion, and reduce transaction failures.
- Engineered split payments architecture and multi-gateway fallback routing (Adyen & MangoPay), reducing transaction drop-offs by 18% and boosting checkout completion by 24%.
- Introduced Tabby BNPL payment rail for commercial listing packages, driving a 31% uplift in self-service package upgrades among small brokerage firms.
- Implemented real-time error logging and alerting pipeline using Mezmo and New Relic, cutting mean time to detect (MTTD) payment gateway failures from 4 hours to under 12 minutes.

EMPG (Emerging Markets Property Group)

2019-06 -- 2021-07

Associate Product Manager — Platform Operations & Delivery

(Dubai, UAE)

- Utilized Metabase and SQL dashboards to monitor operational throughput, lead times, and fulfillment SLA compliance.
- Conceptualized and launched automated Delivery Slot Optimization algorithm, increasing on-time field appointment delivery from 78% to 94%.
- Reduced order fulfillment manual processing cycle time by 42% through self-service vendor portal automation.
- Spearheaded unified ticketing and partner webhook notification service, cutting partner support escalations by 35%.
- Managed backlog, user research, and technical discovery for internal fulfillment tools, SLA tracking dashboards, and operations portals.

VentureDive

2017-07 -- 2019-05

Technical Project Manager / QA Lead

(Lahore, Pakistan / Remote GCC)

- Streamlined release QA cycle time by 50% by establishing automated API testing suites and automated regression pipelines.
- Successfully delivered 6 consecutive on-time major mobile banking app releases with zero critical post-release Sev-1 defects.
- Promoted from QA Engineer to QA Lead / Technical Project Manager within 14 months based on leadership and technical delivery track record.
- Led a cross-functional quality engineering team of 8 across manual and automated testing for iOS, Android, and web platforms.
- Designed end-to-end regression test suites, API test suites in Postman, and performance benchmarking for high-concurrency payment APIs.

KEY PROJECTS & STRATEGIC IMPACT

Subscription Cancellation Redesign & Retention Funnel Optimization | Mixpanel, CleverTap, Metabase

(Bayut & dubizzle)

- Designed personalized cancellation intervention flows with pause options and tailored listing boost credits. Reduced gross subscription cancellations by 23% within the first two quarters.

Multi-Vendor Marketplace Split Payments & Escrow Orchestration | Mixpanel, Postman, Jira

(Bayut & dubizzle)

- Authored end-to-end PRDs and API sequence diagrams for automated escrow funding and disbursement. Reduced transaction drop-offs by 18% across high-value rental reservations.

Delivery Slot Optimization & Automated Field Operations Routing | Metabase, Jira, Postman

(EMPG)

- Defined algorithmic assignment rules to group inspection slots by geographic density and traffic corridors. Elevated on-time inspection completion rate from 78% to 94%.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science -- FAST National University of Computer and Emerging Sciences (2017)

Certifications: Certified Scrum Product Owner (CSPO) (Scrum Alliance) | Pragmatic Institute Certified (Foundations & Build) (Pragmatic Institute)
