PROFESSIONAL EXPERIENCE

Product Manager

Nov 2025 – Apr 2026

Bayuti (PropTech)

London, UK (Remote)

- Engineered split payments architecture and multi-gateway fallback routing (Adyen & MangoPay), reducing transaction drop-offs by 18% and boosting checkout completion by 24%.
- Conducted quantitative analysis of user journey funnels (Mixpanel) and platform telemetry (New Relic) to validate hypotheses and prioritise iterations based on behavioural signals.
- Managed FinTech data integrations including Mangopay (escrow, multi-party payments), Onfido (KYC/identity verification), and DocuSign (digital contracts), ensuring data integrity and auditability for compliance reporting.

Technical Project Manager, Product & Delivery

Jun 2022 – Oct 2025

elGrocer by Smiles

Dubai, UAE (Remote)

- Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.
- Built and maintained real-time observability dashboards (New Relic, Mixpanel, Mezmo), applying statistical analysis to production telemetry to reduce incident resolution time by 35%.
- Managed FinTech payment gateway integrations including Adyen, Tabby (BNPL), Etisalat Payment Gateway, Apple Pay, UTAP, and Careem, handling webhook processing and transaction data validation.
- Analysed and processed 500+ daily Jira support tickets using structured data classification workflows, achieving 99% SLA compliance and enabling closed-loop feedback into product improvements.

QA Lead & Project Coordinator

Aug 2019 – Jun 2022

Dzine Media

Faisalabad, Pakistan

- Applied systematic defect analysis and root-cause investigation across web stacks (HTML, CSS, JavaScript, PHP, SQL), identifying defect patterns through data-driven quality metrics.
- Designed and executed structured test data frameworks for web and application systems, building automated issue-tracking pipelines that reduced bug escape rates by 50%.
- Utilised UI/UX analytics and user behaviour data to map usability defects to measurable drops in engagement metrics, enabling targeted quality improvements.
