

Sana Liaquat

Senior Product Manager — Payments & SaaS, Payments & Platform Integrations

Dubai, United Arab Emirates | sannayamughal9@gmail.com | (+92) 3062520001 | linkedin.com/in/sana-liaquat-pm | sanapm.me

PROFESSIONAL SUMMARY

Product Manager with 7+ years of experience shipping data-driven products across FinTech, SaaS, and PropTech. Owned product strategy and roadmaps that reduced order cancellations by 33%, improved incident resolution time by 35%, and maintained 99% SLA compliance in high-volume environments. Deep expertise in payments, KYC, Open Banking, and customer experience, with extensive hands-on work leading customer-side investigations, support operations, and root-cause analysis to drive measurable product improvements. Skilled in leveraging Mixpanel, New Relic, Mezmo, SQL, and generative AI tools to translate user behaviour and production telemetry into prioritised feature decisions.

CORE COMPETENCIES & SKILLS

Product Strategy & Execution: Product Roadmapping, PRDs & User Stories, Backlog Grooming, Customer Discovery, Agile/Scrum, A/B Testing, Funnel & Conversion Optimization

FinTech & Payments: Payment Gateways (Adyen, MangoPay, Tabby), Split Payments, Escrow, Digital Wallets, PCI-DSS, 3D Secure 2.0, Subscription Invoicing

Technical & Integrations: RESTful APIs, Webhooks, Postman, System Architecture, Microservices Concepts, SQL

Analytics & Tools: Mixpanel, CleverTap, New Relic, Mezmo, Metabase, Jira, Confluence, Figma, Miro

PROFESSIONAL EXPERIENCE

Bayuti (FCA-Regulated PropTech), London, UK (Remote)

Product Manager

2025-11-01 -- 2026-04-22
(London, United Kingdom (Remote))

- Engineered split payments architecture and multi-gateway fallback routing (Adyen & MangoPay), reducing transaction drop-offs by 18% and boosting checkout completion by 24%.
- Managed FinTech data integrations including Mangopay (escrow, multi-party payments), Onfido (KYC/identity verification), and DocuSign (digital contracts), ensuring data integrity and auditability for compliance reporting.
- Conducted quantitative analysis of user journey funnels (Mixpanel) and platform telemetry (New Relic) to validate hypotheses and prioritise iterations based on behavioural signals.
- Reduced bug escape rate by 50% through systematic, data-driven QA frameworks and root-cause analysis applied across the product lifecycle.
- Defined structured data models for investor UX flows and collaborated with engineering on API specifications, webhook schemas, and data architecture for regulatory reporting.

elGrocer by Smiles Private Limited Pakistan

Technical Project Manager, Product & Delivery

2022-06-13 -- 2025-10-31
(Dubai, United Arab Emirates)

- Built and maintained real-time observability dashboards (New Relic, Mixpanel, Mezmo), applying statistical analysis to production telemetry to reduce incident resolution time by 35%.
- Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.
- Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.
- Managed FinTech payment gateway integrations including Adyen, Tabby (BNPL), Etisalat Payment Gateway, Apple Pay, UTAP, and Careem, handling webhook processing and transaction data validation.
- Analysed and processed 500+ daily Jira support tickets using structured data classification workflows, achieving 99% SLA compliance and enabling closed-loop feedback into product improvements.

Dzine Media, Faisalabad, Pakistan

QA Lead & Project Coordinator

2019-08-05 -- 2022-06-09
(Faisalabad, Pakistan)

- Applied systematic defect analysis and root-cause investigation across web stacks (HTML, CSS, JavaScript, PHP, SQL), identifying defect patterns through data-driven quality metrics.
- Designed and executed structured test data frameworks for web and application systems, building automated issue-tracking pipelines that reduced bug escape rates by 50%.
- Collaborated with cross-functional teams across the full SDLC, from requirements analysis through production deployment and post-launch performance monitoring.
- Utilised UI/UX analytics and user behaviour data to map usability defects to measurable drops in engagement metrics, enabling targeted quality improvements.

KEY PROJECTS & STRATEGIC IMPACT

Multi-Vendor Marketplace Split Payments & Escrow Orchestration | Mixpanel, Postman, Jira

(Bayuti / elGrocer)

- Authored end-to-end PRDs and API sequence diagrams for automated escrow funding and disbursement. Reduced transaction drop-offs by 18% across reservations.

- Split Payment & Wallet Orchestration** | Adyen, Apple Pay, Jira

(eIGrocer by Smiles)
- Defined split payment rules and webhook handlers across multiple tender types. Seamless multi-source payment flows in production.
- Unified Payments & Open Banking Integration** | Plaid, Adyen, Tabby

(Bayuti / eIGrocer)
- Defined webhook event schemas and transaction data validation protocols. Improved payment success rate and reduced payment-related support tickets.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Software Engineering -- University of Sargodha (2018)

Certifications: IBM AI Product Manager Professional Certificate (Coursera) | Google Data Analytics Professional Certificate (Coursera) | Generative AI: Prompt Engineering Basics (IBM) | UI/UX & Visual Design (e-rozgaar Program Pakistan)
