Re: Application for Senior Product Manager — Alternative Payment Methods

Dear Hiring Team at Checkout.com,

I am writing to express my enthusiastic interest in the Senior Product Manager — Alternative Payment Methods position at Checkout.com. With 7+ years of hands-on technology experience leading product strategy, payment ecosystems, and cross-functional Agile engineering teams across high-scale digital platforms, I have built a career translating complex operational and technical challenges into measurable customer value and business growth.

My background directly aligns with the priorities outlined for this role:

- **Demonstrated Payment & Platform Impact:** Engineered split payments architecture and multi-gateway fallback routing (Adyen & MangoPay), reducing transaction drop-offs by 18% and boosting checkout completion by 24%.
- **Data-Driven Optimization & Retention:** Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.
- **Operational Rigor & Execution:** Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.

At Checkout.com, I am excited by the opportunity to apply this operational discipline to drive product innovation, scale platform capabilities, and champion customer-centric outcomes. Whether orchestrating partner API integrations, analyzing funnel conversion, or rallying engineering squads around a focused roadmap, I bring a collaborative, metrics-driven approach.

I welcome the opportunity to discuss how my verified background and technical product leadership can contribute to Checkout.com's continued growth. Thank you for your time and consideration.

Sincerely,
