Re: Application for Lead Product Manager — Billing & Revenue SaaS

Dear Hiring Team at GitLab,

I am writing to express my enthusiastic interest in the Lead Product Manager — Billing & Revenue SaaS position at GitLab. With 7+ years of hands-on technology experience leading product strategy, payment ecosystems, and cross-functional Agile engineering teams across high-scale digital platforms, I have built a career translating complex operational and technical challenges into measurable customer value and business growth.

My background directly aligns with the priorities outlined for this role:

- **Demonstrated Payment & Platform Impact:** Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.
- **Data-Driven Optimization & Retention:** Led root-cause investigations across user behaviour, payment processing, and promo code workflows using Mixpanel, Mezmo, New Relic, and CleverTap, directly informing product changes that reduced order cancellations by 33%.
- **Operational Rigor & Execution:** Built and maintained real-time observability dashboards (New Relic, Mixpanel, Mezmo), applying statistical analysis to production telemetry to reduce incident resolution time by 35%.

At GitLab, I am excited by the opportunity to apply this operational discipline to drive product innovation, scale platform capabilities, and champion customer-centric outcomes. Whether orchestrating partner API integrations, analyzing funnel conversion, or rallying engineering squads around a focused roadmap, I bring a collaborative, metrics-driven approach.

I welcome the opportunity to discuss how my verified background and technical product leadership can contribute to GitLab's continued growth. Thank you for your time and consideration.

Sincerely,
